

MICROSOFT EDGE SETTINGS-INTERNET EXPLORER MODE

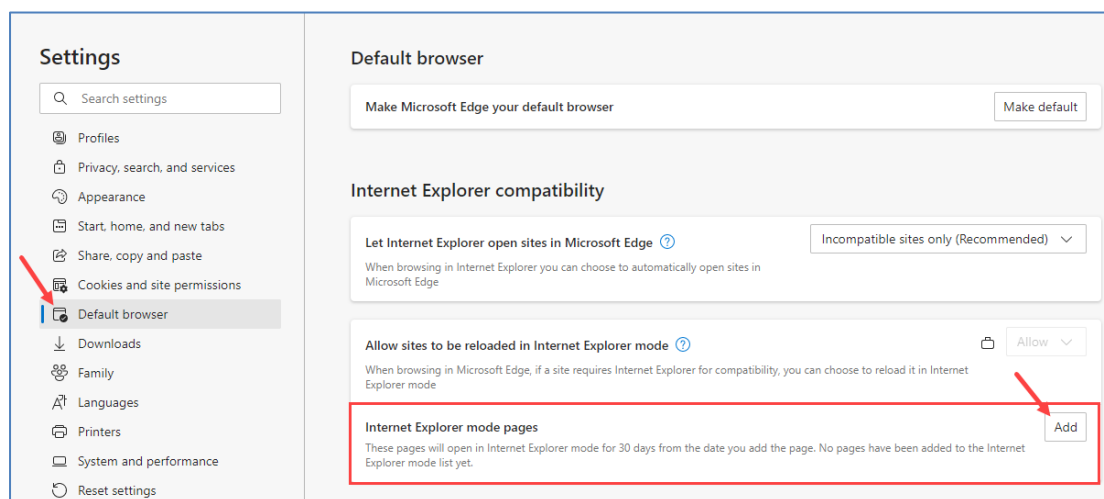

The following instructions explain how to make a website work in Internet Explorer mode using Edge.

Note: *This process must be repeated every 30 days.*

From the CGM webPRACTICE website tab, click the *Settings and more* icon and select *Settings*.

When the *Settings* window displays, click *Default Browser*. When the *Default Browser* window displays, click **Add** to the right of *Internet Explorer mode pages*.

The *Add a page* window will display.

Click back on the CGM webPRACTICE tab, highlight and copy the URL.

Click back on the *Settings* window, paste the CGM webPRACTICE URL into the **URL** field then click **Add**.

Confirm the CGM webPRACTICE URL displays under the *Internet Explorer mode pages* section.

Page	Date added	Expires	
 https://wppm1.cgmus.com/_mnpstatic/html/launch/default.asp	5/24/2022	6/23/2022	

This completes the process.
